

NEEDLE VALVES

Made with either pin handle or pressed on handle. Please specify if you have a preference.

- Used on instrumentation, hydraulic, and pneumatic systems.
- Designed for a maximum working pressure of 150 PSI.
- Provided with steel handles and metal-to-metal seats with fine-thread screwdown.
- Not designed for natural gas, LPG, nuclear or aircraft applications.
- Always install with pressure against the seat.

FLOW CONTROL NEEDLE & CHECK VALVES

- Precision calibrated, dial to determine and allow a return to required flow settings
- Safe positive stop for needle travel
- Positive no-leak stem seal
- 2-PSI he k cracking pressure
- 1000 PSI maximum operating pressure
- One piece forged housing
- Nickel plated available
